

Riviera Advisors' Core Principles Make It A Unique Consulting Firm

Focus on Talent Management Strategy

We help clients develop and sustain organizational and individual capabilities needed for long-term business performance.

Problem-Solving Orientation

We analyze the organizational and Talent Management dimensions of business problems and provide pragmatic, customized solutions.

High Performance Approach

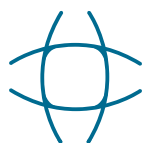

We develop solutions based on the analysis of high-performing individuals and organizational units, and we benchmark with other high-performing organizations.

Collaboration

We work in partnership with our clients to incorporate their expertise and organizational perspectives, and to build internal capabilities for sustaining solutions long-term.

Vendor Neutral

Because many of the solutions that we may recommend or advise our clients to consider do provide financial incentives to consultants, we believe we have to take a stand on NOT accepting any financial incentives
